

# HUMBLE

We aren't humble when we try to be the most important. Jesus is called the humble King. He came to be a servant and to teach us how to be a servant too.

We can only truly serve others when we make their needs more important to us than our own wants. Who can you help today? Who can you serve? Take some time to think about the people around you and try to do something that serves them! Put a name on the person shape and then put your helping/serving ideas in the hand.
